The Spiritual Roots of the Tarot Russell A. Sturgess,2020-09-22 Learn the path to enlightenment and inner peace encoded by the Cathar in the Major Arcana of the Marseille Tarot Reveals how the secret wisdom teachings of the heretical Cathar sect were hidden in plain sight in the imagery of the Major Arcana of the Marseille Tarot deck Decodes each of the cards in detail and shows how they offer clear instructions for recalibrating human consciousness and achieving enlightenment Shares the author s self development program based on the wisdom of the cards for creating a lifestyle filled with peace joy good health and meaning The Holy Grail has been discovered Not a cup or chalice as myth leads us to believe the Holy Grail is sacred knowledge of the path to enlightenment and inner peace While author Russell Sturgess was conducting research on the Marseille Tarot he found evidence that this tarot deck while masquerading as a simple card game held the teachings of an ancient heretical religious group from southern France the Cathar believed to be the keepers of the Holy Grail To avoid persecution by the papacy this sect used portable art like illuminations to convey their Gnostic Christian teachings in the same way the stained glass windows of churches spoke to their congregations This portable Cathar art then inspired the creation of the Tarot After his breakthrough discovery of a hidden key on the Magician and Strength cards Sturgess examined the Major Arcana cards further and used the key to unlock their symbolism discovering clear instructions for recalibrating human consciousness and achieving enlightenment with specific cards representing pivotal points in making the journey from ignorance to awareness Decoding the cards in detail the author shows how they reveal a journey of transformed consciousness that can result in finding what the Cathar called the kingdom of heaven Calling this sacred knowledge the Cathar Code Sturgess reveals his personal development program based on the Code that opens access to a meaningful lifestyle filled with peace and joy and that naturally fosters health and well being He shows how these teachings offer a clear path that transforms a life burdened by fear of failure rejection and scarcity into one with clarity of purpose self honoring kindness and the abundance that comes with making a fulfilling difference in the world

God and Gaia Michael S Northcott,2022-12-22 God and Gaia explores the overlap between traditional religious cosmologies and the scientific Gaia theory of James Lovelock It argues that a Gaian approach to the ecological crisis involves rebalancing human and more than human influences on Earth by reviving the ecological agency of local and indigenous human

communities and of nonhuman beings Present day human ecological influences on Earth have been growing at pace since the Scientific and Industrial Revolutions when modern humans adopted a machine cosmology in which humans are the sole intelligent agency The resultant imbalance between human and Earthly agencies is degrading the species diversity of ecosystems causing local climate changes and threatens to destabilise the Earth as a System Across eight chapters this ambitious text engages with traditional cosmologies from the Indian Vedas and classical Greece to Medieval Christianity with case material from Southeast Asia Southern Africa and Great Britain It discusses concepts such as deep time and ancestral time the ethics of genetic engineering of foods and viruses and holistic ecological management Northcott argues that an ontological turn that honours the differential agency of indigenous humans and other kind and that draws on sacred traditions will make it is possible to repair the destabilising impacts of contemporary human activities on the Earth System and its constituent ecosystems This book will be of considerable interest to students and scholars of the environmental humanities history and cultural and religious studies
