Contemporary Insights And Transformative Perspectives In Human Development: Review Papers, Critical Reflections And Emerging Paradigms Prof Dr Kamini Prakash Rege, 2025-07-18 The reviewed literature underscores the evolving and multifaceted nature of human development in contemporary society Young adults today face complex relational technological and societal pressures that shape their emotional psychological and social trajectories A prominent concern is the prevalence of dating abuse and psychological manipulation often involving coercion emotional degradation and isolation which can result in lasting impacts on self esteem and mental health Relatedly the experience of being ghosted reflects broader patterns of emotional unavailability and normalization of abrupt relationship dissolution contributing to anxiety abandonment issues and mistrust Social media plays a dual role in mental health discourse While it helps destigmatize psychological disorders the commodification and misuse of diagnostic labels have led to widespread self diagnosis and misinformation This trivialization can obscure the severity of genuine mental health conditions and reduce the perceived value of professional care Digital technologies and artificial intelligence also significantly influence the development of children and adolescents While personalized learning and educational gamification offer potential benefits they introduce concerns such as data privacy screen dependence overstimulation and reduced face to face socialization Human development concerns are increasingly seen as lifelong Early and pre retirement transitions for instance highlight the need for emotional and financial preparedness beyond youth Work life balance emerges as another critical theme for younger populations High expectations and hypercompetitive environments often result in chronic stress and burnout making balance a necessity for long term well being rather than a luxury Across all themes the literature emphasizes the need for proactive interventions educational efforts and systemic reform A holistic approach to human development considering emotional cognitive relational and digital dimensions is essential Institutions educators families and policymakers must collaborate to build adaptive and resilient support systems that reflect evolving developmental needs with empathy equity and evidence based strategies

Organizational Stress Around the World Kajal Sharma, Cary Cooper, D.M. Pestonjee, 2021-01-28 Stress is defined as a feeling experienced when a person perceives that demands exceed the personal and social resources the individual is able to mobilize It can occur due to environmental issues such as a looming work deadline or psychological for example persistent worry about familial problems While the acute response to life threatening circumstances can be life saving research reveals that the body's stress response is largely similar when it reacts to less threatening but chronically present stressors such as work overload deadline pressures and family conflicts It is proffered that chronic activation of stress response in the body

can lead to several pathological changes such as elevated blood pressure clogging of blood vessels anxiety depression and addiction Organizational Stress Around the World Research and Practice aims to present a sound theoretical and empirical basis for understanding the evolving and changing nature of stress in contemporary organizations It presents research that expands theory and practice by addressing real world issues across cultures and by providing multiple perspectives on organizational stress and research relevant to different occupational settings and cultures Personal occupational organizational and societal issues relevant to stress identification along with management techniques approach to confront stress and its associated problems at individual and organizational level are also explored It will be of value to researchers academics practitioners and students interested in stress management research

Personal Sustainability Oliver Parodi, Kaidi Tamm, 2018-03-14 Transition to sustainability is stuck and academic research has not resulted in significant change so far A large void in sustainability research and the understanding of sustainable development is an important reason for this Personal Sustainability seeks to address this void opening up a whole cosmos of sustainable development that has so far been largely unexplored Mainstream academic economic and political sustainable development concepts and efforts draw on the macro level and tend to address external collective and global processes By contrast the human individual intra and inter personal aspects on the micro level are often left unaddressed The authors of Personal Sustainability invite the reader on a self reflecting journey into this unexplored inner cosmos of sustainable development focusing on subjective mental emotional bodily spiritual and cultural aspects Although these are intrinsically human aspects they have been systematically ignored by academia To establish this new field in sustainability research means to leave the common scientific paths and expand the horizon Together with authors from cultural studies philosophy anthropology psychology sociology psychiatry aesthetics and economics and supported by contributions from practitioners this book portrays different approaches to personal sustainability and reflects on their potentials and pitfalls paving the way to cultures of sustainability This book will be of great interest to researchers and students in the field of sustainability and sustainable development as well as researchers from philosophy anthropology psychology sociology cultural studies ethnology educational research didactics aesthetics economics business and public administration
