Unconditional Parenting:

Unconditional Parenting Alfie Kohn, 2006-03-28 A groundbreaking approach to parenting by nationally respected educator Alfie Kohn that gives parents powerful alternatives to help children become their most caring responsible selves Adele Faber New York Times bestselling author by switching the dynamic from doing things to children to working with them in order to understand their needs and how to meet them Most parenting guides begin with the question How can we get kids to do what they re told and then proceed to offer various techniques for controlling them In this truly groundbreaking book nationally respected educator Alfie Kohn begins instead by asking What do kids need and how can we meet those needs What follows from that question are ideas for working with children rather than doing things to them One basic need all children have Kohn argues is to be loved unconditionally to know that they will be accepted even if they screw up or fall short Yet conventional approaches to parenting such as punishments including time outs rewards including positive reinforcement and other forms of control teach children that they are loved only when they please us or impress us Kohn cites a body of powerful and largely unknown research detailing the damage caused by leading children to believe they must earn our approval That s precisely the message children derive from common discipline techniques even though it s not the message most parents intend to send More than just another book about discipline though **Unconditional Parenting** addresses the ways parents think about feel about and act with their children It invites them to question their most basic assumptions about raising kids while offering a wealth of practical strategies for shifting from doing to to working with parenting including how to replace praise with the unconditional support that children need to grow into healthy caring responsible people This is an eye opening paradigm shattering book that will reconnect readers to their own best instincts and inspire them to become better parents

Unconditional Parenting James Stark, 2018-03-25 One basic need all children have Kohn argues is to be loved unconditionally to know that they will be accepted even if they screw up or fall short Yet conventional approaches to parenting such as punishments including time outs rewards including positive reinforcement and other forms of control teach children that they are loved only when they please us or impress us Kohn cites a body of powerful and largely unknown research detailing the damage caused by leading children to believe they must earn our approval That s precisely the message children derive from common discipline techniques even though it s not the message most parents intend to send
