

Quality Control

- ISO 9000 defines quality control as "A part of quality management focused on fulfilling quality requirements".
- It is that part of GMP concerned with sampling, specification & testing, documentation & release procedures which ensure that the necessary & relevant tests are performed & the product is released for use only after ascertaining it's quality. Process concerned with medicine sampling, specifications, and testing, and with the organization's release procedures that ensure that the necessary tests are carried out and that the materials are not released for use, nor products released for sale or supply, until their quality has been judged satisfactory
