State Formation and Identity in the Middle East and North Africa K. Christie, M. Masad, 2013-12-17

For states in the Middle East North Africa and South Asia the Arab Spring has had different implications and consequences stemming from the politics of identity and the historical and political processes that have shaped development This book focuses on how these factors interact with globalization and affect state formation Muslims In Australia Samina Yasmeen,2010-07-15 Muslims in Australia have attracted increased attention as citizens in the last decade The research scholars in this book present a complex and dynamic picture of their presence and experiences in Australia taking us far beyond simplistic notions of security threats and discrimination Their contributions reveal that Muslims and non Muslims as individuals and communities display many different attitudes towards each other and towards many issues including reactions to the media threats of terrorism and access to Islamic schools The non Muslim community does not always set the agenda for these interactions Muslims experience exclusion while excluding others at the same time often other Muslims Muslims in Australia portrays the varied ways in which Muslims traverse spaces of inclusion and exclusion and suggests ideas to encourage and sustain acceptance and social cohesion Islamic Studies Series Volume 6 **Social Justice, Activism and Diversity in U.S. Media History** Teri Finneman,Erika Pribanic-Smith,2023-05-12 This book offers a diverse approach to journalism history told from a multimedia perspective re examining mainstream stories and highlighting contributions that are often overlooked Bringing together a team of prominent journalism historians the volume centers race and ethnicity gender and sexuality class religion disability mental health and generations to tell forgotten stories of journalism s historical influence The book is designed to appeal to Generation Z college students offering budding mass communicators a valuable tool that addresses gaps in historical pedagogy and fosters representation in the classroom Each chapter contains access to video and podcast extras chapter summaries guides to further reading and suggested activities to bring these narratives alive and keep readers engaged Interactive and accessible Social Justice Activism and Diversity in U S Media History is an indispensable resource for Generation Z scholars in mass communication and American history journalists and general readers Going to Tehran Flynt Leverett,Hillary Mann Leverett,2013-01-08 An eye opening argument for a new approach to Iran from two of America s most informed and influential Middle East experts Balanced sober impressively document and rich in insight a valuable antidote to the warmongering that passes for analysis of Iran and US Iranian relations Andrew J Bacevich author of Breach of Trust Less than a decade after Washington endorsed a fraudulent case for invading Iraq similarly misinformed and politically motivated claims are pushing America toward war with Iran Today the stakes are even higher such a war could break the back of America s strained superpower status Challenging the daily clamor of US saber rattling Flynt and Hillary Mann Leverett argue that America should renounce thirty years of failed strategy and engage with Iran just as Nixon revolutionized U S foreign policy by going to Beijing and realigning relations with China Former analysts in both the Bush and Clinton administrations the Leveretts offer a uniquely informed account of Iran as it actually is today not as many have caricatured it or wished it to be They show that Iran s political order is not on

the verge of collapse that most Iranians still support the Islamic Republic and that Iran's regional influence makes it critical to progress in the Middle East Drawing on years of research and access to high level officials Going to Tehran explains how Iran sees the world and why its approach to foreign policy is hardly the irrational behavior of a rogue nation A bold call for new thinking the Leveretts indispensable work makes it clear that America must go to Tehran if it is to avert strategic catastrophe There is a whole slew of highly dubious assumptions and narratives about Iran that are rarely challenged in any meaningful way in media circles Going to Tehran is vital to thinking critically about these claims Because of their expertise and their long immersion in these issues the Leveretts and this book deserve a prominent voice in any serious debate about Iran Glenn Greenwald The Guardian Read this book You ll find a lot of information that s not generally available and valuable insights that are sharply at odds with conventional views in the United States This book may help if it s widely enough understood to halt a very clear drift toward what could be a terrible war Noam Chomsky

Ferial J. Ghazoul, 2005 Covering the multi faceted career of Edward Said with emphasis on his critical contribution to decolonization and resistance to hegemony this book includes articles exploring in depth of Said's political critical and aesthetic positions including his views on the Palestinian question and exile on Orientalism and representation and more

Jesus in an Age of Terror James G. Crossley, 2008 This book applies the work of Noam Chomsky Edward Herman Edward Said and several others on international politics and the supportive role of the media intellectuals and academics to contemporary Christian origins and New Testament scholarship Part One looks at the ways in which New Testament and Christian origins scholarship has historically been influenced by its political and social settings over the past hundred years or so Moving on to the present the following chapter then applies Herman and Chomsky's propaganda model of manufacturing consent in the mass media to the recent explosion of biblical scholars writing on the internet in particularly biblio bloggers It is clear that political views in biblio blogging conform strikingly to the emphases that come through in Herman and Chomsky's analysis of the mass media and intellectuals particularly with the standard lines on the war on terror

and views on the contemporary Middle East The rest of the book takes up modified key areas of the propaganda model in more detail Part Two looks at the Orientalist rhetoric of clashing civilisations and how this relates to the war on terror and the creation of Islam Arabs Middle East etc as the Great Enemy in the media and relevant intellectual thought since the 1970s and to use Derek Gregory's phrase hideously emboldened in the war on terror The next chapter then shows how this context has had a highly noticeable impact on the use of social sciences in New Testament and Christian origins scholarship in particular the stark generalisations of scholars using cultural social anthropology based on contemporary studies of the Middle East Disturbingly some of this scholarship has many rhetorical links with Anglo American foreign policy interests in the Middle East and beyond making some politically charged statements that cohere closely with recent intellectual defences of actions in Iraq Palestine and beyond Part Three looks at issues of Palestine and Israel in the media alongside Christian secular and relevant intellectual thought since the Six Day War of 1967 focusing in particular on the dramatic shift towards widespread support for Israel This also includes an analysis of the recent and controversial case of Nadia Abu el Hajs tenure at Barnard The following chapter shows how this interest in Israel has had a profound impact on historical Jesus and Christian origins studies particularly the strange emphasis on Jewishness and misplaced allegations of antisemitism since the 1970s Despite the shift in support of Israel this is rarely done for love of Jews Judaism Israel or Israelis because there remains a notable cultural political and religious superiority in Anglo American scholarship While owing much also to an Orientalist tradition this too is strongly echoed in scholarship of Christian origins where for all the emphasis on the Jewishness of Jesus and the first Christians it is extremely common to find Jesus or the first Christians being better than Judaism or overriding key symbols of Judaism as constructed by scholarship done ironically by frequent ignoring of relevant Jewish texts The end results of contemporary scholarship are not dramatically different from the results of the anti Jewish and antisemitic scholarship of much of the twentieth century
