is an introduction of the religious philosophy on which the author has been working for years being based upon the mathematically essential relation between the Infinite and the finite It breaks the barrier separating science from religion and establishes a firm foundation on which can rest securely all that is true and good and permanent in every system of philosophy and of religion While this treatise is mostly argumentative and theoretical the principles herein established can be applied practically not only towards the attainment of man s ultimate goal of infinity and perfection but also in the ordinary affairs and interests of daily life The practical side of the subject with other important theoretical details will be presented in the future About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Slayers of Moses Susan A. Handelman,2012-02-01 In this groundbreaking study Susan Handelman examines the theological roots of the modern science of interpretation She defines current structures of thought and patterns of organizing reality clearly distinguishes them from previously reigning Hellenic modes of abstract thought and connects them with important elements of the Rabbinic interpretive tradition Hers is the first comprehensive treatment of the undeniable and undeniably significant influence of Jewish religious thought on contemporary literary criticism Dr Handelman shows how they provide a crucial link among several of the most influential modern theories of textual interpretation from Freud to the Deconstructionist School of Lacan and Derrida as well as current literary theorists who revive Rabbinic hermeneutics such as Harold Bloom and Geoffrey Hartman
