Bernstein, Julie Ann Pooley, Lynne Cohen, Steve Provost, Jacquelyn Cranney, Neil Drew, 2023-11-03 Bernstein's Psychology takes a balanced approach to the discipline of psychology. The content of the text ranges across the history of psychological theories that aim to understand human behaviour from cell to society and includes multidisciplinary approaches. All content and assessment material is carefully constructed to develop the requisite skills to evaluate human behaviour with a scientific attitude. Graduate competencies and psychological literacy continue to be a unique inclusion so that students master the knowledge, skills, and professional attributes required to practise psychology competently and safely. Indigenous and cross-cultural psychology content is covered in two chapters as well as being integrated throughout the text with a key focus on local research and examples. The Handbook provides insights on the differences among domestic, outbound, and inbound markets and acknowledges that the supply sub-sectors of tourism are diverse, highlighting variations by geographic regions.
