Activity Guide - Social Sleuth

Sleuthing Online:

To get a better understanding of how your digital footprint is created, you're going to read through several example social media pages and attempt to build a detailed picture of the users. Each user has profiles on multiple social media platforms, but they won't always use the same identifying information, so you'll need to look for clues to help figure out which accounts belong to which person. There are several users represented in the pages, but you'll only need to build a detailed picture of two of them.

Directions:

1. Go to the Code Studio levels for this lesson to find the social media pages.
2. Fill out a table for **two unique individuals** you identify in the pages.
 - a. List the FaceSpace, Chirpr, and instantframe names for the user.
 - b. Answer each question **to the best of your ability**. Some questions may not have answers for some users, or will have more or less detailed answers (for example, you may only find the user's state or city for the address, but you might be able to figure out their street number).
 - c. List the site, or sites, where you found the information.
 - d. Mark whether it was shared by the user directly, or by somebody else.

User #1: FaceSpace _____ Chirpr _____ instantframe _____
