**Business Case for Renewable Energy at Airports** Stephen B. Barrett, Philip M. DeVita, Julie E. Kenfield, Bradley T.

Jacobsen, David Y. Bannard, 2016 This report is a guidebook to help airports understand renewable energy opportunities The report includes instructions and tools to evaluate proposed renewable energy projects and their alternatives so that an

informed decision that maximizes financial self sustainability environmental and social benefits can be reached The report lays out what a business case is why renewable energy is important and what a business case for renewable energy looks like

It describes the importance of identifying the project objective and understanding how renewable energy might fit into an airport s vision A decision making matrix is included that contains criteria used to evaluate a renewable energy project with a

system for weighting each factor based on an airport s particular objectives The report presents a business case in the

context of an airport's typical master planning and capital improvement planning processes including engagement of key stakeholders. The report provides a model business case that evaluates a solar photovoltaic facility, a fossil fuel generator, and a fuel cell as options for providing on-site electricity generation to improve an airport's energy stability and resiliency. It also includes examples of renewable energy business cases from both aviation and non-aviation organizations to highlight lessons learned. A sample request for proposals and a sample power purchase agreement are provided for project implementation. A CD-ROM CRP CD 177 provides supplemental information. **Business Case Essentials** Marty J. Schmidt, 2020-01-07
