Journal Of Globalization And Development:

The Globalization and Development Reader J. Timmons Roberts, Amy Bellone Hite, Nitsan Chorev, 2014-12-31 This revised and updated second edition of *The Globalization and Development Reader* builds on the considerable success of a first edition that has been used around the world. It combines selected readings and editorial material to provide a coherent text with global coverage reflecting new theoretical and empirical developments. Main text and core reference for students and professionals studying the processes of social change and development in third world countries. Carefully excerpted materials facilitate the understanding of classic and contemporary writings. Second edition includes 33 essential readings including 21 new selections. New pieces cover the impact of the recession in the global North, global inequality and uneven development, gender, international migration, the role of cities, agriculture and on the governance of pharmaceuticals and climate change politics. Increased coverage of China and India help to provide genuinely global coverage and for a student readership the materials have been subject to a higher degree of editing in the new edition. Includes a general introduction to the field and short insightful section introductions to each reading. New readings include selections by Alexander Gershenkron, Alice Amsden, Amartya Sen, Anne Marie Slaughter, Cecile Jackson, Dani Rodrik, David Harvey, Greta Krippner, Kathryn Sikkink, Leslie Sklair, Margaret E. Keck, Michael Burawoy, Nitsan Chorev, Oscar Lewis, Patrick Bond, Peter Evans, Philip McMichael, Pranab Bardhan, Ruth Pearson, Sarah Babb, Saskia Sassen and Steve Radelet.

Globalisation, Economic Development & the Role of the State Ha-Joon Chang, 2003-07 Ha Joon Chang evaluates the role of the state in economics and development. In this collection of essays he reviews theories and practices of state intervention as they have developed over two centuries of modern capitalism. He develops an institutionalist approach to the role of the state in economic change and examines the issues involved in particular settings including industrial policy, trade policy, intellectual property rights, regulation and strategies towards transnational corporations. He mounts a sophisticated theoretical and historical case for the continuing essential and constructive roles which the state can and must play in economic development.
