Tl;dr Karl Fisch,2019-05-05 You know you need to learn more about personal finance in order to make financial decisions but you just find it too overwhelming too intimidating and too time consuming This book was written for you giving you the basics in less than an hour and then directing you to further resources fischlearning.com/tldr if you d like to learn more It s about 30 pages and should take less than an hour to read so instead of TL DR Too Long Didn t Read it will hopefully be JR DR KM Just Right Did Read Know More

This book isn't about getting rich quickly not that there's anything wrong with that but it's about gaining knowledge and building your capacity in order to live a good life. What's a good life? I don't know everyone's definition is different. What's important is that you take the time to define what a good life is for you and then align your financial decisions with that. The goal of this book is to help you think about your finances in such a way that you have the independence to lead the life you want to live to give you as much control as possible over your financial situation so that your finances don't prevent you from living the life you want. I say book because that's what Amazon calls it but it's more like a really long blog post. I wrote it because finances and financial decisions are such a huge part of everyone's life that they should take the time to thoroughly educate themselves. Since many folks won't do that this book is an attempt to quickly give them the basics and hopefully encourage them and give them the confidence to learn more. I am not a financial planner I have taught students mathematics and computer science for over thirty years but have no formal training in personal finance or investing and no certifications. I am simply a lifelong learner constantly curious and have been interested in personal finance since working in a credit union during high school and college and continued to be curious and learn more about finance during my career as a public school teacher. Over my years as a teacher I discovered that not only did my students not know much about personal finance but neither did my family friends and colleagues I often served as a resource for those folks. Partially as a result of that experience I see the necessity for a book such as this as I wanted to do my part to try to help others become financially literate. While it would be nice to make a little bit of money from this that's not really my expectation or my goal. This is a passion project for me I hope folks find it helpful. If you do read it it would be helpful if you could leave a review on Amazon and or email me at karl.fischlearning.com a testimonial for the accompanying website I would also love constructive feedback at bit.ly/tldrfeedback. So about thirty pages About an hour Ready to get started Future you will thank you

Loose Leaf for Focus on Personal Finance Robert J. Hughes, Jack R. Kapoor, Les R. Dlabay, Professor, 2021-01-11 Focus on Personal Finance is a brief 14 chapter text covering the critical topics in Personal Finance courses. Focus is designed and written to appeal to a range of ages, life situations and financial literacy levels. As the Kapoor author team prepared this edition they worked hard to include important content in every chapter you can use to develop a plan to build financial security and weather another pandemic, an unexpected job loss or unexpected life situations. A unique aspect of this text is its active approach. This text will get your students thinking about their current situation and financial goals and encourage them to put these in writing to use as a guide and revise throughout their lives. Sections are oriented around specific action items for students. The more a student involves themselves in the assessments, exercises and worksheets provided the more they will discover about their current habits and how to improve them for greater financial freedom. Students have many different financial goals but none are more important than having a basic understanding of financial issues and peace of mind about their decisions. The ultimate goal of Focus on Personal Finance is to get students to this point as a first step to achieving the

many financial goals they have set for themselves
