Runes:

Runes and Their Secrets Marie Stoklund, 2006 *Runes and Their Secrets* is a collection of articles written mainly in English by recognized scholars examining a wide range of runological topics. The articles originated as papers read at an international runic symposium that was held in 2000. *Jelling Runes* embraces Danish runic inscriptions from the first to the sixteenth century including such topics as the names of the runes, their chronology, literacy, runic coins, etc. There are also articles on the oldest runic research and runic magic. Several of the articles present brand new knowledge, for example about runic encryption of military and erotic secrets from the middle of the sixteenth century. Formerly titled *Jelling Runes*

Norwegian Runes and Runic Inscriptions Terje Spurkland, 2005 This book presents an accessible account of the Norwegian examples throughout the period of their use. The runic inscriptions are discussed not only from a linguistic point of view but also as sources of information on Norwegian history and culture. **BOOKJACKET** **The Book of Runes** Francis Melville, 2003 Provides an overview of Norse mythology relating to the history of runes and explains the meanings of the runes whether they be made from wood, stone, or alternate materials. *Taking Up the Runes* Diana L. Paxson, 2021 The author has distilled her years of experience working with the runes and teaching others into this one definitive sourcework. In a series of chapters dealing with rune pairs, readers will learn the historical meaning of each individual rune and its use and meaning now in contemporary culture. But the real power of the runes comes from internalizing them and using their symbols as sources of wisdom and strength. At the end of each chapter are rituals and spells for all levels of ability to help internalize the attributions, meanings, symbolism, and use of the runes. *A Pocket Guide to Runes* Ben Waggoner, 2018-12-22 Runes, the very name seems to conjure up mystery. Runes appear everywhere, from rock album covers to Viking and fantasy movies. But what are they and how are they used? What do they mean? How and why are they used in magic and in divination? This handy, pocket-sized booklet presents a brief working knowledge of the ancient writing system of the Germanic-speaking peoples. After learning about the runes' origins and their uses, both for writing mundane texts and for magic and divination, you can look up individual rune letters and explore the surprisingly complex symbolism behind them. Fresh translations of the old rune poems round out this brief but informative introduction. **Runelore** Edred Thorsson, 1987-05-01 Runelore, authority and author Edred Thorsson explores the riddle of the runes. Combining historical lore with a detailed investigation, *Runelore* focuses on the esoteric aspects of the runic tradition. In Part One, *Historical Lore*, Thorsson uses archaeological evidence to explain where the runes come from, what they mean, and how they evolved. In Part Two, *Hidden Lore*, he takes a more psychological view of the runes and looks at the entire cosmology of the Old Norse to explain the role runes played and how they were used over time. Included are specific sections on rune magic and divination, rune poems, runic numerology, and concise explanations of the mysteries of the 24 runes. Reprinted with a newly designed cover, *Runelore* offers a complete picture of the Runes. **Runes** Andrew McKay, 2022-11 Serves as the perfect starting point for anyone interested in
