**Baseball's Most Outrageous Promotions** Joseph Natalicchio, 2026-01-07. In major league baseball, the period between 1946 and the early 1980s represented the Era of the Barnums, when certain inspired owners and executives raised to an art form the use of promotions to increase attendance. This book highlights thirteen of the most outlandish such stunts in major league history. These promotions go far beyond giveaways of Hawaiian shirts or unique bobbleheads. They involved a battle with weapons between baseball players and fans, children running willy nilly around a baseball field, naked fans running the bases, drunken fans trashing baseball fields, fans dismantling a stadium while a game was ongoing, fans managing a game from the stands, women parading in wet T-shirts, mass weddings, the Beatles playing to a half-empty stadium, a mule mascot treated better than players, and an explosion on a baseball field large enough to create a crater. Even wilder promotions are covered in impressive detail in this unique study of major league history.

**Sample Book Insights**

- 1 I was born in 1938, the first Turner born north of the Mason-Dixon line. I was showered with love from my parents and extended family. My earliest memories are of holding the screen door open for my great grandmother on my mother's side.
- 2 I was an energetic child and I spent much of my time in the backyard and at the creek that ran through a little vacant lot down the street. I turned over rocks to find little bugs and crayfish and took them home to put in a jar. I was the center of my parents' attention for nearly three years before the birth of my sister, Mary Jean.
- 3 I had a difficult time adjusting to life in Cincinnati after the war. My father was a perfectionist and I was often punished for doing things wrong. I didn't like going to school and spent most of my time outside playing with my friends.
- 4 I had no way of knowing if my father was telling the truth when he said that the razor strap hurt him more than it did me, but I do know that he used it on me a lot. I had no way of knowing if he was telling the truth when he said that he loved me, but I do know that he was a very volatile man with a quick temper.

**Empires of Entertainment** Jennifer Holt, 2011-06-01. *Empires of Entertainment* integrates legal, regulatory, industrial, and political histories to chronicle the dramatic transformation within the media between 1980 and 1996. As film, broadcast, and cable grew from fundamentally separate industries to interconnected, synergistic components of global media conglomerates, the concepts of vertical and horizontal integration were redesigned. The parameters and boundaries of market concentration, consolidation, and government scrutiny began to shift as America's politics changed under the Reagan administration. Through the use of case studies that highlight key moments in this transformation, Jennifer Holt explores the politics of deregulation, the reinterpretation of antitrust law, and lasting modifications in the media landscape. Holt skillfully expands the conventional models and boundaries of media history. A fundamental part of her argument is that these media

industries have been intertwined for decades and as such cannot be considered separately. Instead, film, cable, and broadcast must be understood in relation to one another as critical components of a common history. *Empires of Entertainment* is a unique account of deregulation and its impact on political economy, industrial strategies, and media culture at the end of the twentieth century. **Power Surge** Thomas Schatz, 2026. From the author of *The Genius of the System*, the classic tale of Hollywood's first golden age comes the story of its last. Thomas Schatz returns us to an era when a newly enriched movie industry rediscovered its creative energy and indie went mainstream without losing its edge. Between 1989 and 2004, all the old studios either merged with other media giants or were swallowed up by even bigger diversified behemoths, leading to an infusion of money and fast tracking the digital revolution. Yet even as CGI and piles of cash fueled a new breed of blockbusters like *Batman* and *Titanic*, *Toy Story* and *The Lord of the Rings*, an indie ethos permeated the industry. And at the crossroads of commodification and aesthetic vision, auteurs ranging from Steven Soderbergh and Quentin Tarantino to Sofia Coppola and Ang Lee became household names. *Power Surge* traces these trajectories which increasingly clashed and commingled during the 1990s and early 2000s, resulting in nothing short of a new golden age and perhaps the last gasp of the century-old studio system.

**Making the News Popular** Anthony M. Nadler, 2016-06-15. The professional judgment of gatekeepers defined the American news agenda for decades. *Making the News Popular* examines how subsequent events brought on a post-professional period that opened the door for imagining that consumer preferences should drive news production and unleashed both crisis and opportunity on journalistic institutions. Anthony Nadler charts a paradigm shift from market research's reach into the editorial suite in the 1970s through contemporary experiments in collaborative filtering and social news sites like Reddit and Digg. As Nadler shows, the transition was and is a rocky one. It also goes back much further than many experts suppose. Idealized visions of demand-driven news face obstacles with each iteration. Furthermore, the post-professional philosophy fails to recognize how organizations mobilize interest in news and public life. Nadler argues that this civic function of news organizations has been neglected in debates on the future of journalism. Only with a critical grasp of news outlets' role in stirring broad interest in democratic life, he says, might journalism's digital crisis push us toward building a more robust and democratic news media. Wide-ranging and original, *Making the News Popular* offers a critical examination of an important and still-evolving media phenomenon.
