Get Started with the Acme Developer Platform

Acme's developer platform provides many API products, tools, and resources that enable you to harness the power of Acme's open, global, and real-time communication network.

This page describes what's possible to build with the different tools and APIs available on the platform and how to get the access and information you need to get started.

We regularly update and improve the experience and products available on the developer platform. These improvements make it important for you to stay informed so you don't miss any updates.

Which tools and APIs are available?

The Acme developer tools and endpoints are grouped into the following APIs, which you can read more about on our "Products Overview" page. You can also visit our "API reference index" page to see a full list of the endpoints available on the platform.

| APIs | Description |
|--------------|--|
| Standard API | The standard endpoints will let you perform the following: |
| Standard API | Post, retrieve and engage with posts and threads. |
| Standard API | Post and receive direct messages. |
| Standard API | Manage and self-update account information. |
| Standard API | Create and manage lists. |
