American Hospital Association's Coding Clinic citations include official ICD 10 CM coding advice relating to specific codes and their usage. 175 full color illustrations provide visual orientation and enhance understanding of specific coding situations. Items are included throughout the Tabular List to ensure accurate coding, providing additional information on common diseases and conditions. Additional elements within specific codes define terms and add coding instructions relating to difficult terminology, diseases and conditions, or coding in a specific category. Symbols and highlights draw attention to codes that may require special consideration before coding, including New Revised and Deleted Codes that call for the use of additional characters. Includes Excludes 1 and Excludes 2.
