An increasing number of companies are looking at Web Services and Service-Oriented Architecture (SOA) as a blueprint and set of standards for addressing the integration requirements involved in building composite applications. BPEL and Web services standards have solved this problem by addressing common application requirements in an open, portable and standard way. SOA enables business agility by maximizing existing resources while minimizing the cost of deploying new applications.

Product Overview

Oracle BPEL Process Manager is an integral part of Oracle's Business Integration solution, which provides a comprehensive, standards-based and easy to use solution for creating, deploying and managing cross-application business processes with both automated and human workflow steps – all in a service-oriented architecture. Its native support for standards such as BPEL, XML, XSLT, XPATH, JMS, JCA and Web Services makes this an ideal solution for creating integrated business processes that are truly portable across platforms. Oracle BPEL Process Manager fully leverages sophisticated features of the underlying Oracle Application Server 10g platform such as security, scalability and high availability.
