Factors That Influence Curriculum Design:

Curriculum Design in Special Education Justine R. Kinnaird, 2012 The purpose of this study was to depart from theory and focus on the realities of day to day decisions special education teachers are asked to make The chief purpose of this study was to gain insight into the factors that influence curriculum design such as high stakes testing teacher experience knowledge of content teacher training collaboration and materials In order to do so the researcher designed an on line survey that focused on curriculum design Additional information and insights were gleaned from the study For example were teachers using Common Core Standards CCS as a measuring stick when designing curriculum and choosing materials Were teachers employing best practices when designing curriculum Were teachers balancing priorities such as IEP goals high stakes tests and class pace Were students given the opportunity to gain access to and progress in the general education curriculum It is important to examine authentic day to day instructional decisions and activities in order to understand gaps between best practice research and legislative demands and actual classroom practices It was the hope of the researcher that this study would determine whether there was a need for more instructional materials and or further professional development for the special education staff members taking part in the study

Developing Person-Centred Cultures in Healthcare Education and Practice Brendan McCormack, 2024-03-18 *Developing Person Centred Cultures in Healthcare Education and Practice* This book embarks on an ambitious journey to challenge existing paradigms and spark a radical shift in the way healthcare is perceived and delivered Dive into a groundbreaking exploration of person centred healthcare education offering a multi dimensional framework that redefines learning and practice in the healthcare landscape This comprehensive guide with contributions from top experts in the field dissects the critical components of a person centred curriculum spanning philosophy strategy values leadership and practical skills The book empowers readers with real world case studies tools and reflective exercises propelling the implementation of transformative person centred healthcare practices Derived from the concepts introduced by the first European funded project to frame and develop a person centred healthcare curriculum *Developing Person Centred Cultures in Healthcare Education and Practice* presents an indispensable resource for healthcare practitioners looking for a way to develop person centred cultures within the workplace Key features An innovative curriculum framework for person centred healthcare education and practice In depth coverage of philosophy strategy shared values leadership and practical skills for fostering person centred cultures Practical tools and real case studies to facilitate effective implementation of person centred practices This book is an indispensable resource for educators healthcare practitioners and policymakers looking to champion the shift towards person centred healthcare practices
