This article contains only my own opinions, but necessarily they tend to cover accepted views, or even common to any way. We all discuss with other computers, and other to ourselves. Personal judgement of why value in the opinion.

It's also important to realize the purpose of this article: not to teach you how to program, but rather to teach you **what programming is**. This article answers all those questions for you, so you can then decide whether you want to start learning how to program.

What that is, well, let's begin.
