STOP BULLYING SPEAK UP

APPLYING AN SEL FRAMEWORK TO BULLYING

Adapted from CASEL's SEL & Bullying Prevention

SCHOOL-WIDE APPROACHES

Classroom Climate

Teachers play an enormously important role in setting the classroom climate. If aggressive norms become established and are not corrected, the students in these classrooms display more aggressive acts in future years.

CLASSROOM APPROACHES

Interventions

Students who are victimized, who witness bullying, or who regularly bully others need extended opportunities to practice relevant SEL skills. Schools also need to establish a support system for victims of bullying, as some may need therapeutic interventions to address their resulting psychological issues, such as depression & anxiety.

SEL Curricula & Activities

Helping young people think about the harmful consequences of their bullying behaviours on others and on their own relationships may reduce these behaviours. Giving young people opportunities to practice effective helping behaviours can help them develop the confidence to intervene in bullying situations.

Parental Involvement

Since many victims are more likely to confide in their parents before other adults, parents need to be aware of what bullying is and what they should do at home and in concert with the school if their child is either a victim or a perpetrator of bullying.

Handbook of Prevention Science Beth Doll, William Pfohl, Jina S. Yoon, 2012-03-07 Prevention research has traditionally focused on preventive interventions tied to specific disorders e.g substance abuse conduct disorders or criminality This produced silos of isolated knowledge about the prevention of individual disorders but not about interventions that work across disorders This handbook is the first to comprehensively describe current research and practice in mental health prevention programs that is organized around comprehensive prevention systems that reach across all disorders and all institutions within a community Throughout the book preventive interventions are seen as a necessary component of effective mental health programs not as a replacement for therapeutic interventions Provided by publisher

Blueprints for Violence Prevention: Bullying prevention program, 1999 Bullying Prevention Program Dan Olweus, 1999 The Bullying Prevention Program is a universal intervention for the reduction and prevention of bully victim problems The main arena for the program is the school and school staff has the primary responsibility for the introduction and implementation of the program

Oxford Textbook of Violence Prevention Peter D. Donnelly, Catherine L. Ward, 2014-11-27 Violence has always been and is to this day a primary cause of tension and suffering the world over More than half a million people are murdered each year around the world making homicide the leading cause of death among people aged 15-44 The Oxford Textbook of Violence Prevention brings together an international team of experts to provide an extensive global account of the mortality and morbidity burden caused by violence It does this by examining the causes of

violence and what can be done to prevent and reduce violence Divided into six sections the textbook analyses how a public health approach can help to prevent violence This multidisciplinary book tackles interpersonal violence in all its forms Early chapters describe epidemiology and consequences followed by chapters that present the current state of the evidence in interventions Policies for violence reduction are discussed and finally recommendations are made for researchers practitioners and policy makers The Oxford Textbook of Violence Prevention is an essential resource for anyone involved in seeking to reduce the role of violence in modern society The print edition is complimented with 12 months free access to the online version Featuring the full comprehensive and authoritative text of the book the online edition has the added convenience and flexibility of an online resource and is available on oxfordmedicine com
