 - B. Many Americans believed a credibility gap existed because of inconsistencies between what was shown by media and what the administration said about the war.
 - C. Students and teachers at universities held teach-ins to explain why they opposed the war, while many protesters focused on what they thought was an unfair draft system. Most of the soldiers were working-class and minority youths.
 - D. As the war went on, many young men burned their draft cards while an estimated 500,000 refused to go.
