Time And Space Complexity:

Theory and Practice of Natural Computing Carlos Martín-Vide, Roman Neruda, Miguel A. Vega-Rodríguez, 2017-12-12
This book constitutes the refereed proceedings of the 6th International Conference on Theory and Practice of Natural Computing TPNC 2017 held in Prague Czech Republic December 2017 The 22 full papers presented in this book together with one invited talk were carefully reviewed and selected from 39 submissions The papers are organized around the following topical sections applications of natural computing evolutionary computation fuzzy logic Molecular computation neural networks quantum computing

SOFSEM 2001: Theory and Practice of Informatics Leszek Pacholski, Peter Ruzicka, 2003-06-30 SOFSEM 2001 the International Conference on Current Trends in Theory and Practice of Informatics was held on November 24 December 1 2001 in the well known spa Piešťany Slovak Republic This was the 28th annual conference in the SOFSEM series organized either in the Slovak or the Czech Republic SOFSEM has a well established tradition Currently it is a broad multidisciplinary conference devoted to the theory and practice of software systems Its aim is to foster cooperation among professionals from academia and industry working in various areas of informatics The scientific program of SOFSEM consists of invited talks which determine the topics of the conference and short contributed talks presenting original results The topics of the invited talks are chosen so as to cover the whole range from theory to practice and to bring interesting research areas to the attention of conference participants For the year 2001 the following three directions were chosen for presentation by the SOFSEM Steering Committee Trends in Informatics Enabling Technologies for Global Computing Practical Systems Engineering and Applications The above directions were covered through 12 invited talks presented by prominent researchers There were 18 contributed talks selected by the international Program Committee from among 46 submitted papers The conference was also accompanied by workshops on Electronic Commerce Systems coordinated by H D Zimmermann and Soft Computing coordinated by P H Ajek

Soft Computing and Intelligent Systems Madan M. Gupta, 1999-10-28 The field of soft computing is emerging from the cutting edge research over the last ten years devoted to fuzzy engineering and genetic algorithms The subject is being called soft computing and computational intelligence With acceptance of the research fundamentals in these important areas the field is expanding into direct applications through engineering and systems science This book covers the fundamentals of this emerging field as well as direct applications and case studies There is a need for practicing engineers computer scientists and system scientists to directly apply fuzzy engineering into a wide array of devices and systems
