Geographic Information Systems for Intermodal Transportation Eunsu Lee, 2023-03-21 *Geographic Information Systems for Intermodal Transportation Methods Models Applications* examines the basic concepts and applications of Geographic Information Systems for Transportation. The book discusses the unique characteristics of each transportation mode: highway, railway, waterway, and airway, as well as the combined intermodal transportation network. The book shows how GIS generates vehicle routes and shortest paths, develops transportation demand models, analyzes spatial data, and how three-dimensional modelling is applied to the intermodal transportation. Includes real-world case studies from diverse situations. Provides step-by-step insights using data to deliver effective outputs for all stakeholders. Presents models and practices for using GIS techniques to solve intermodal transportation problems. Includes learnings, tools, such as chapter objectives, discussion questions, and a glossary.

Learning MapGuide Open Source Gordon Luckett, 2021. MapGuide Open Source is a free web-based platform for creating and publishing web mapping applications and geospatial web services. In this course, Gordon Luckett shows how to get up and running with MapGuide and create your own maps. Gordon explains how to install and configure MapGuide, load data in a range of formats and sources, and create stylish layers and combine them into maps. He also details the process for publishing your map to the web, including tips for navigating firewalls and how to create short URLs for easier user access.

Advances in Computer Science, Engineering and Applications David C. Wyld, Jan Zizka, Dhinakaran Nagamalai, 2012-05-17. The International conference series on Computer Science Engineering Applications ICCSEA aims to bring together researchers and practitioners from academia and industry to focus on understanding computer science engineering and applications and to establish new collaborations in these areas. The Second International Conference on Computer Science Engineering Applications ICCSEA 2012 held in Delhi, India, during May 25-27, 2012, attracted many local and international delegates presenting a balanced mixture of intellect and research, both from the East and from the West. Upon a strenuous peer review process, the best submissions were selected, leading to an exciting, rich, and a high-quality technical conference program which featured high-impact presentations in the latest developments of various areas of computer science engineering and applications research.
