

Specifying the Default JavaScript Editor

You can choose to either use the built-in JavaScript editor that comes with Acrobat, or an external JavaScript editor of your choice. To set the default JavaScript editor that you want to use:

1. Choose **Edit > Preferences** to open the **Preferences** dialog box.
2. Select **JavaScript** from the list of options on the left side of the dialog box. This brings up the **Preferences** dialog shown in Figure 2.3.
3. In the **JavaScript Editor** section, select the editor you want to use.

FIGURE 2.3 *Selecting the Editor in Preferences*

The **Acrobat JavaScript Editor** option sets the built-in Acrobat JavaScript editor as the default.

The **External JavaScript Editor** option sets an external editor as the default. If you wish to use an external editor, type or paste the path to the editor in the text box, or click **Browse...** to navigate to your preferred JavaScript editor application.

NOTE: When you specify some external editors by browsing, Acrobat adds command options to the editor command. For details, see “Additional Editor Capabilities” on page 24.
