Exceptional Child Education Abstracts ,1975 **Rural STEM Education Research: Bridging between Uniqueness and Universality** Guan Saw, Angela Starrett, Audrey Meador ,Hobart Harmon, 2026-01-23 The opposition

between uniqueness and universality in rural science technology engineering mathematics and medicine STEM education research is an enduring feature of the field Theories and methods developed to be universally applicable are constantly adopted or reimaged in studying and understanding certain unique STEM education phenomena or issues within and across rural contexts partly due to the vastness and variety that exists in what is labeled as rural and or STEM education Research ideas and findings focused on a unique rural population or setting often can have universal implications for other rural and non rural populations or settings though not explicitly articulated in many publications Striving to be both unique and universal is a fundamental challenge yet has the potential to advance knowledge and practice in the field of rural STEM education The overall goal of this Research Topic is to introduce and explore the ideas of rural focused and rural reimaged approaches in potentially bridging the gaps between uniqueness and universality in STEM education research Rural focused theories and constructs e g place based education rural identity are centered around populations and issues in rural settings whereas rural reimaged theories and constructs e g urban rural spatial inequality social capital expectancy value beliefs are traditional theories and constructs that are reconceptualized to include rural perspectives in the studies This Research Topic seeks articles that examine both the uniqueness and universality of rural STEM education and educational research utilizing rural focused and or rural reimaged lens or approaches We particularly welcome articles that address unique assets challenges needs opportunities and or lessons learned of rural STEM education while being situated in a broader research discipline as well as articles that explore the commonalities and connections across study cases policies programs practices or contexts of rural STEM education This Research Topic invites theoretical methodological and empirical contributions addressing but not limiting to the following key topics Rural focused topics Defining rurality in STEM education Defining STEM in rural areas Place based STEM teaching learning etc Rural STEM identity belonging etc STEM education in rural serving postsecondary institutions STEM education for local workforce development Rural reimaged topics Urban rural spatial inequality in rural STEM education Community cultural wealth in rural STEM education STEM funds of knowledge of rural learners Underrepresentation of rural students in STEM education Intersectionality in rural STEM education Critical policy analysis in rural STEM education Communities of practice in rural STEM education Research practice partnerships for rural STEM education Articles need to define rurality for interpretation by international readers and describe the uniqueness and universality of the research topics theories methods findings and or implications in the context of rural STEM education

Children's Books in Print R R Bowker Publishing, Bowker, 1999-12 **Microcomputers in Special Education** Florence M. Taber, 1983 Essentials of Research Methods in Education Scott Buckler, Harriett Moore, 2026-03-01 This book provides pragmatic advice and guidance on how to undertake educational research Using the concept of research as a quest it takes you on a journey from planning stages through data collection to analysis to writing up your findings and at each stage exploring the principles and practice

that can support your own research projects This second edition has been carefully revised throughout to offer A more logical structure and better signposting of key topics to support your understanding of the research process Important ethical considerations throughout to demonstrate how research ethics are vital at every step Engaging and thought provoking commentaries on how to progress in your research quest Enhanced granular detail on different methodological approaches This is essential reading for students on all education courses that include a research methods module or project

Building Health Through Physical Activity in Schools, volume II Luís Branquinho, Pedro Forte, Ricardo Ferraz, José Eduardo Teixeira ,Andrew Sortwell, 2026-02-25 This is the second volume of the Research Topic Building Health Through Physical Activity in Schools please see the first volume here Physical activity in the school context refers to the various ways in which students engage in physical activity during the school day This can include physical education classes recess and lunch breaks and extracurricular sports and activities The importance of physical activity in schools can be seen in the numerous benefits it can provide for students physical and mental health academic performance and overall well being Physical education classes are a key component of physical activity in schools providing students with structured physical activity opportunities and helping them to develop the knowledge and skills needed to be physically active throughout their lives Additionally recess and lunch breaks can provide students with the opportunity to engage in unstructured physical activity allowing them to socialize with their peers and blow off steam Extracurricular sports and activities can also provide students with opportunities to be physically active while also helping them to develop important social and teamwork skills Research has shown that students who are physically active tend to have better academic performance are less likely to experience obesity and related health issues and have better mental health However despite the many benefits of physical activity many students do not engage in enough physical activity Factors such as a lack of access to physical activity opportunities limited time for recess and physical education and a focus on academics over physical activity can all contribute to this problem In order to promote physical activity among students it is important for schools to provide a variety of opportunities for physical activity and to make physical activity an integral part of the school day Therefore high quality articles of different types e g original research clinical trials systematic reviews are strongly recommended Potential topics include but are not limited to The impact of physical activity programs on the academic performance of school aged children Examine the effectiveness of school interventions to increase physical activity levels in children The relationship between physical activity levels and mental health in school aged children Examine the influence of school policies and facilities on physical activity levels in children The role of physical education in promoting lifelong physical activity habits in children Investigate the impact of technology use on physical activity levels in school aged children Examine the effectiveness of community based approaches to increasing physical activity levels among school aged children The impact of socioeconomic status on physical activity levels among school aged children The relationship between physical activity levels

and body weight in school aged children Investigate the impact of school physical activity programs on reducing childhood obesity *Canadian Book Review Annual* ,1996 *Library & Information Science Abstracts* ,1999 **The Education Index** ,1984 **Social Issues in Sport** Ronald B. Woods, RON. BUTLER WOODS (NALANI.),B. Nalani Butler,2025-11-28 The fifth edition examines contemporary sport both factually and critically particularly in the United States The book situates the modern sport world in the context of the historical development of sport Provided by publisher *Journal of the American Medical Association* American Medical Association,1911 Includes proceedings of the Association papers read at the annual sessions and list of current medical literature *The Software Encyclopedia 2000* Bowker Editorial Staff,2000-05 *Social Science Abstracts* ,1930 **American Men of Science** ,1949 *The Standard Periodical Directory* ,1992 *The Publishers' Trade List Annual* ,1978 **Irregular Serials & Annuals** R.
