Backgammon is a fun strategic game played by two players Be the first player to remove all your checkers from the board to win this game Backgammon is easy to learn but takes time to master The object of Backgammon is to move your checkers around the board by rolling dice The number rolled equals the number of points a checker can move First move all your checkers to your home board Second move all your checkers off the board The game begins with each player rolling one die The player with the higher number rolled gets to use both dice for the first move Each dice is moved separately and can be moved forward to any point that is not blocked When your opponent has two or more checkers on a point that point is blocked If the point has your own checkers no checkers or only one opponent checker the point is open When both dice are rolled with the same number the player will move double For example if double threes are rolled the player will move three points four times When a player moves a checker onto a point that only has one opponent checker the opponent s checker is placed on the middle bar Any checker on the middle bar has to be returned into play before making any other moves A checker returns to the board on your farthest point i e the 24th point Get your copy today by scrolling up and clicking Buy Now to get your copy today *Backgammon Tactics* Harold Thorne,1931 **Backgammon For Winners** Bill Robertie, table font5 color black font size 8pt font weight 700 font style normal text decoration none font family Tahoma sans serif font6 color black font size 8pt font weight 700 font style normal text decoration none font family Tahoma sans serif td padding 0px color windowtext font size 10pt font weight 400 font style normal text decoration none font family Arial sans serif vertical align bottom border medium none white space nowrap xl66 font size 12pt font family Times New Roman xl67 font size 12pt font family Times New Roman vertical align middle The world s best backgammon player and two time champion provides easy to understand advice on the basics of playing and winning at backgammon Ten fast reading chapters show the basics of setting up a board how to move the opening strategies and replies middle and end game tactics basic probabilities plus back game and doubling strategy Two sample games are included with move by move insights so players learn the winning concepts of play at all stages of the game A great first book for beginning and somewhat experienced players [Backgammon](#) Robin A. obsession In some countries of Southern Europe and the Middle East it is a way of life A typical game of backgammon lasts 68 minutes if it is Hit or Gioul and double that if it is Plakoto or Moultezim These are the fastest most absorbing minutes in a player's lifetime The game moves in lightening speed and requires total concentration The mixture of chance and skill are perfectly balanced in Hit the other games leaning heavier on skill There is hardly a moment of boredom when you play backgammon Even when the game seems hopelessly lost there is still a finite probability of a turnaround The suspense is always there the tension is never ending What more would you want for an evening of relaxation This book is written to fill a void the almost total absence of information on backgammon games other than basic Hit usually called backgammon in the West The authors find it incredible that Gioul Plakoto and Moultezim still remain a well kept secret among backgammon connoisseurs Gioul is the most fun filled game played on the board every dice throw a surprise Plakoto is without doubt the king of Backgammon games Moultezim is a serious game for the purist the consummate space strategist Players who are unaware of these games are not really fulfilled This book illustrated with more than 300 diagrams illustrations and exercises aims to change all that and turn all casual players into full fledged backgammon experts Fell's Guide to Winning Backgammon Walter Brown Gibson, 1974 If you are serious about playing Backgammon then you must buy this book It will turn you into an unbeatable opponent Backgammon: Its History and Practice George Frederick Pardon, 1844 **Begin Backgammon** J. du C.
