

Algebra 2B - Activity 10.2

1. Based on the grid below, identify each function below as being a linear or a non-linear function.

2. Identify each of the functions below that are **linear** and those that are **non-linear**. Write your answer next to the function by labeling it **linear** or **non-linear** on the graph.

This is being labeled with the word **linear** because it is linear.

3. Graph each of the functions part 2 on the grid below using the word **linear** or **non-linear** at the end of each graph. If a function is **non-linear**, then graph it on the grid.

Remember, the functions that are **linear** are graphed on the grid, and the functions that are **non-linear** are graphed on the coordinate plane.
