Authentic Japanese: Progressing from Intermediate to Advanced [New Edition] Osamu Kamada, Fusako Beuckmann, Yoshiko Tomiyama, Machiko Yamamoto, 2025-05-12 This textbook helps intermediate learners make the leap to advanced Japanese by comprehensively building their communication skills. Users make their way through engaging real life readings that are challenging but not frustrating and then discuss or write reports on the material to further deepen their learning experience. Includes supplements that list the vocabulary used in each unit and explain key expressions. The companion workbook sold separately provides practice in vocabulary, grammar and tasks aligned with the textbook.

Authentic Japanese Osamu Kamada, 1998 **Second Language Literacy Practices and Language Learning Outside the Classroom** Miho Inaba, 2018-11-21 This book presents a comprehensive and detailed study of literacy practices and language use outside of the classroom by university students of Japanese. It investigates both tasks related to classes e.g. homework and preparation for classes and voluntary activities in the target language e.g. watching TV and writing emails and discusses how values, motivations and types of activities differ between the two contexts. It employs sociocultural perspectives to observe reading and writing activities within and under the influence of individual and social contexts such as learner motives, peer networks and the language classroom and contributes to the related research areas in the field of second language acquisition such as motivation, autonomous language learning and language learning strategies. Crucially, the book not only documents out of class literacy activities but also examines which teaching practices facilitate and promote such out of class language learning and use. It considers which literacy activities in the target language students undertake out of class, which factors encourage or discourage such out of class activity and how and with which tools they undertake these activities. As such, the book provides guidance for classroom teaching and suggests that slight changes to teaching practices in the classroom may enhance autonomous learning outside the classroom.

Topics include Meiji racial theory, the varieties of Japanese imperialist ideology, nationalist attitudes towards China, Kyoto School Sinology, resistance to foreign yakozuna in sumo wrestling.

Translanguaging and Epistemological Decentring in Higher Education and Research Heidi Bojsen, Petra Daryai-Hansen, Anne Holmen, Karen Risager, 2023-01-13 Using data from multilingual settings in universities and adjacent learning contexts in East Asia North Africa Central and North America and Europe this book provides examples of the heuristic value of translanguaging and epistemological decentring Despite this and other theoretical and empirical work and ever stronger calls for the inclusion of other languages epistemologies and constructions of culture in higher education decentring and translanguaging practices are often relegated to the margins or suppressed in research and education because of the organisational structures of education institutions and prevailing language norms policies and ideologies The authors draw on research on pluri and multilingualism within education studies as well as post and decolonial theoretical contributions to the research on the role of language in education and knowledge production to provide evidence that decentring cannot happen until learners have been given the tools to identify which sorts of centring dynamics and conditions are salient to their learning and trans languaging
