

1. Finding asymptotically dominant:

Using the general form $a_n \sim c \cdot n^k \cdot r^n$, find the asymptotically dominant term. $a_n = 2n^3 + 5n^2 + 3n + 1$

2. Asymptotic Equivalency:

Write down the asymptotically dominant term:

11. Determine whether or not each of the provided pairs asymptotically:

- (a) $2n^2$ and n^2
- (b) n^2 and n^3
- (c) n^2 and $n^2 \log n$
- (d) n^2 and n
- (e) n^2 and $n^2 \log n$

12. Determine the primary difference between a Θ -bound and a Ω -bound. Do you think Ω is a stronger bound?

Θ -bound	Ω -bound
<p>Θ-bound: A function $f(n)$ is $\Theta(g(n))$ if there exist positive constants c_1, c_2 and n_0 such that $c_1 g(n) \leq f(n) \leq c_2 g(n)$ for all $n \geq n_0$.</p>	<p>Ω-bound: A function $f(n)$ is $\Omega(g(n))$ if there exist positive constants c and n_0 such that $f(n) \geq c g(n)$ for all $n \geq n_0$.</p>

13. Explain the difference between Θ and Ω notation. Do you think Ω is a stronger bound? Why or why not?

Θ notation indicates that a function is bounded both above and below by another function, while Ω notation only indicates a lower bound. Ω is a weaker bound than Θ because it only guarantees that the function grows at least as fast as the reference function, but it does not guarantee an upper bound.

De Blij Ch 1 Study 2:

Geography Alexander B. Murphy, 2018-12-11 Ever since humans sketched primitive maps in the dirt the quest to understand our surroundings has been fundamental to our survival Studying geography revealed that the earth was round showed our ancestors where to plant crops and helped them appreciate the diversity of the planet Today the world is changing at an unprecedented pace as a result of rising sea levels deforestation species extinction rapid urbanization and mass migration Modern technologies have brought people from across the globe into contact with each other with enormous political and cultural consequences As a subject concerned with how people environments and places are organized and interconnected geography provides a critical window into where things happen why they happen where they do and how geographical context influences environmental processes and human affairs These perspectives make the study of geography more relevant than ever yet it remains little understood In this engrossing book Alexander B Murphy explains why geography is so important to the current moment

Shakespeare and Immigration Ruben Espinosa, 2016-04-01 Shakespeare and Immigration critically examines the vital role of immigrants and aliens in Shakespeare s drama and culture On the one hand the essays in this collection interrogate how the massive influx of immigrants during the reign of Queen Elizabeth I influenced perceptions of English identity and gave rise to anxieties about homeland security in early modern England On the other they shed light on how our current concerns surrounding immigration shape our perception of the role of the alien in Shakespeare s work and expand the texts in new and relevant directions for a contemporary audience The essays consider the immigrant experience strangers and strangeness values of hospitality in relationship to the foreigner the idea of a host society religious refuge and refugees legal views of inclusion and exclusion structures of xenophobia and early modern homeland security In doing so this

volume offers a variety of perspectives on the immigrant experience in Shakespearean drama and how the influential nature of the foreigner affects perceptions of community and identity and collection questions what is at stake in staging the anxieties and opportunities associated with foreigners Ultimately Shakespeare and Immigration offers the first sustained study of the significance of the immigrant and alien experience to our understanding of Shakespeare s work By presenting a compilation of views that address Shakespeare s attention to the role of the foreigner the volume constitutes a timely and relevant addition to studies of race ethics and identity in Shakespeare A Study Guide for Nigeria Howard Wolpe,1966
