

# English Final Exam Review

Under **Freytag's pyramid**, the plot of a story consists of five parts:

Exposition (originally called Introduction)

Rising action (rise)

Climax

Falling action (return or fall)

Catastrophe, denouement, resolution, or revelation.

## Theme

The **theme** is a central, underlying, or dominant idea in a work of literature. Theme is what the writer wishes to convey about the subject—his/her view of the world or a revelation about human nature.

Theme is not the same as **plot** or **subject**—two terms with which it is sometimes confused.

**Identifying theme (38-4):**

- The title can often provide insight into the theme or themes of a story.
- Sometimes a narrator's or character's statement can reveal a theme.
- The arrangement of events can suggest a story's theme.
- A story's central conflict can offer clues to its theme.
- The point of view of a story can shed light on its theme.
- Quite often a story's symbols—names, places, and objects—can suggest its theme.
- Finally, changes in a character can shed light on the theme or themes of the story.

And remember...

- Themes are not always easy to express.
- There is no single, absolute way of expressing a work's theme.
- A theme doesn't have to connect to a moral or a lesson learned.
- A theme is **UNIVERSAL**—meaning ALL of us can apply it to our lives in one way or the other. It is not limited to characters in the literature.

**The Literary Element of Theme**

Additionally, many universities and educational institutions have their own digital

libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
