was essentially a tool for the facilitation of increasingly technologically assisted medical procedures Heavily illustrated with floor plans drawings and photographs this book considers the hospital building as both a cultural artifact revelatory of external medical and social change and a cultural determinant actively shaping what could and did take place within hospitals

Therapeutic Landscapes Clare Cooper Marcus, Naomi A Sachs, 2013-10-21 This comprehensive and authoritative guide offers an evidence based overview of healing gardens and therapeutic landscapes from planning to post occupancy evaluation It provides general guidelines for designers and other stakeholders in a variety of projects as well as patient specific guidelines covering twelve categories ranging from burn patients psychiatric patients to hospice and Alzheimer s patients among others Sections on participatory design and funding offer valuable guidance to the entire team not just designers while a planting and maintenance chapter gives critical information to ensure that safety longevity and budgetary concerns are addressed
