Christian theologians examine the scientific and philosophical implications and potential impacts of genetic technologies. *God Science and Designer Genes: An Exploration of Emerging Technologies* provides a unique approach to the central ethical dilemma in contemporary science, offering both an up-to-date account of the current state of genetic technologies and insightful discussions of the moral and theological questions these technologies raise. Coauthored by professors of biology and theology, *God Science and Designer Genes* examines a range of headlines issues including the relationship between science and religion, designing our children, stem cell research, cloning, genetics, and behavior, genetics and privacy, and using genetic technologies for social justice. Who should benefit personally and financially from DNA technology? Who might be harmed? How do we protect individual rights and guard against discrimination? How will embryo modification affect the identity of those so modified? *God Science and Designer Genes* gives readers an eloquent, thoughtful, and objective foundation for considering these and other questions about the potential conflict between scientific achievement, personal faith, and social responsibility.

*Canadian Maternity and Pediatric Nursing* Jessica Webster, Caroline Sanders, Susan Ricci, Theresa Kyle, Susan Carmen, 2019-08-14. *Canadian Maternity and Pediatric Nursing* prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families to assist them to make the right choices safely, intelligently, and with confidence.

**Giddens's Concepts for Canadian Nursing Practice - E-Book** Debra (Debbie) Sheppard-LeMoine, Lisa-Marie Forcier, 2025-11-21. Learn the core concepts of Canadian nursing care and how to apply them to the clinical setting. *Giddens's Concepts for Canadian Nursing Practice* uses a simplified, intuitive approach to describe 64 important concepts relating to all areas of nursing practice in a Canadian health care context, including Indigenous health, racism, and gender diversity. Integrating the latest Canadian statistics, research, and cultural considerations, this text emphasizes cultural safety, interprofessional collaboration, and health equity. To reinforce understanding, this book also makes connections among related concepts and links you to other Elsevier nursing textbooks. Exemplars for each concept provide useful examples and models showing how concepts are successfully applied to practice. Essential tools and case studies for clinical reasoning in nursing help you confidently prepare for almost any clinical nursing situation.

**Why Black People Die Sooner** Joseph L. Graves, Jr., 2025-11-11. There is a persistent gap in life expectancy between Black people and their white counterparts in the United States. It is a direct result of structural racism within American society and has nothing to do with genetic differences. In past eras, scientific racism sought to shift the blame to the supposed physical inferiority of people of African descent. Even today, medicine labors under false beliefs derived from nineteenth-century racial thinking, harming patients who are not of European descent. *Why Black People Die Sooner* is a powerful and rigorous examination of the ways racism shapes health and disease. Joseph L. Graves Jr. demonstrates that the medical profession still fails to grasp basic facts about race, tracing how deep-rooted falsehoods have perpetuated the disparity between Black and white lifespans. He equips readers with the tools to dispel the fallacies and

errors of racialized medicine including an understanding of evolutionary biology and human biological variation Graves also debunks common misconceptions about race and health on topics such as high blood pressure sickle cell disease the microbiome infectious diseases and cancer Why Black People Die Sooner closes by offering a sweeping vision for dismantling medical racism from professional training to clinical practice through biomedical research Timely and bracing this book reveals why medicine keeps misunderstanding race and how we can make it change [Human Genetics Concepts and Application 12e](#) Ricki Lewis,2013 [AAOHN Journal](#) ,1986 **The American Biology Teacher** ,2002 **Hayes' Principles and Methods of Toxicology** A.
