ELECTRONIC PARKING BRAKE SYSTEM (EPB) FAILURES

SEALED BOX - WATER INGRESS

We design high reliability electronic systems. We neither supply nor repair automotive parts. Repair possibility: IF corrosion has not seriously damaged any circuit tracks or components then it might work after washing the board using a small paintbrush with PCB cleaner and then spraying with Electrolube contact cleaner oil to halt further corrosion. It is conceivable this could be achieved by 'keyhole surgery' through the Bowden cable hole.
