This text takes a project based approach to learning AutoCAD in which the student develops a campus library. Each book comes with a CD containing numerous video presentations of the written material. The first two chapters are intended to get the reader familiar with the user interface as well as the most common menu tools and commands that are required to work effectively with AutoCAD 2011. By the end of chapter two the student will be excited and prepared to take on a much larger project. Throughout the rest of the book the student develops the campus library. Using step by step tutorial lessons the library project is followed through to create FFE plans, interior elevations, schedules and details. In these chapters many of the additional tools and features of AutoCAD 2011 are covered in greater detail. General building codes and industry standard conventions are covered in a way that is applicable to the current exercise.
