[Bloomberg Visual Guide to Candlestick Charting](#) Michael C. Thomsett, 2012-02-07. The easy-to-use guide to interpreting candlestick charts and derivative markets. Candlestick charts are an effective way of visualizing price movements and, due to the increased interest in the complex derivatives market, they are being used more and more widely. A combination of a line chart and a bar chart where each bar represents the range of price movement over a given time interval, candlestick charts are most often used in technical analysis of equity and currency price patterns. A guide to the most used charts. The *Bloomberg Visual Guide to Candlestick Charting* is arranged in an easy-to-use manner, providing a quick reference for those new to the field. Candlestick charts are formed with the help of the opening, high, low, and closing price of the day. If the opening price is above the closing price, then a filled candlestick is drawn, and these charts are visual aids for decision making in forex, stock, commodities, and options trading. Contains alphabetical explanations of over 200 candlestick and related terms. Includes daily charts of 50 companies and six-month charts for comparative explanations of candlesticks with Western style technical indicators. Written by Michael C. Thomsett, author of over sixty books and hundreds of articles, including the bestselling *Getting Started in Bonds*, also published by Wiley. Enhanced eBook editions offer video tutorials, test yourself quizzes, and full-color interactive charts and graphs available for purchase separately. A practical and concise resource for anyone new to this way of representing derivatives. The *Bloomberg Visual Guide to Candlestick Charting* presents sometimes confusing concepts in a format that is easy to understand and digest.

[The Candlestick Chart Analysis Trading Guide](#) O. A. Poz. Bible goes through dozens of different chart patterns and teaches traders what to look for, how to analyze them, and how to place profitable trades using these patterns. The book consists of four main parts: Trend Line Patterns, Multi-Candle Patterns, Single-Candle Patterns, and Useful Indicators. The easy-to-read format and explanations will allow traders to become proficient in reading price charts and be able to tell where price action is going next at a moment's notice. This book is a must-read for those who wish to understand candlestick patterns and the underlying principles behind the patterns which allow for profitable trades. Towards the end, we discuss useful indicators that readers can add to their own trading toolbox. The indicators covered pair extremely well with candlestick technical analysis strategies. The patterns covered in this book include Japanese candlestick patterns, common patterns such as head and shoulders, hammer candles, the 5 different types of Doji, triangles, channels, pennants, and flags, engulfing candles, Belt Holds, and many other easy-to-use but powerful setups. We also discuss much rarer and lesser-known candlestick patterns which can serve as extremely powerful trade setups, such as Tasuki Gaps, Star patterns, and many more. This book is a must-read for those who wish to compete against professional traders and take their skills to the next level.
