## LESSON 2 ■ ACTIVITY 3

### Answers for Changes in Supply

#### Part A

Based on the information provided in Figure 13.2, each event in the legend below will cause the supply of cars to shift. Use the blue arrows in the right of the graph to show whether the supply will shift to the right or to the left. Use the green arrows to show whether the change in quantity demanded is positive or negative. In the third column, describe how the supply curve shifts and in which direction. Finally, write the label for the new supply curve. Use Figure 13.2 to help you. Green arrows at points A and B show only one direction of shift. The horizontal length of the supply of cars does not change.
