## Unit 1 Photosynthesis and the carbon cycle

### Topic 1.1 Photosynthesis

#### Exercise 1.1A How light level affects photosynthesis

- 1 The type of plant; the mass of the plant; the temperature

2

Apparatus	Amount of light	Volume of gas collected in cm <sup>3</sup>
A	high	18.5
B	low	7.2
C	none	0.5

- 3 Plants photosynthesise faster when they have more light.

#### Exercise 1.1B The effect of different colours of light on the rate of photosynthesis

- 1 The colour of the light / cellophane.  
 2 The number of bubbles produced in one minute.  
 3 Any three from: the light intensity (strength); the type of water the water plant was in; the quantity of water plant; the type of water plant; the temperature.  
 4 For example:

Colour of light	Number of bubbles per minute			
	1st try	2nd try	3rd try	mean
white	11	13	12	12
red	10	12	11	11
green	4	5	6	5
blue	8	12	10	10

5

- 6 Accept any valid conclusion that can be made from these results, for example: plants photosynthesise fastest in white light; photosynthesis happens faster in blue light than in green light.

#### Exercise 1.1C Turning an idea into a hypothesis that can be tested

- 1 Accept any answer that:
- is in the form of a clearly phrased hypothesis
  - relates to the effect of carbon dioxide on the rate of photosynthesis of an aquatic plant
  - can be tested by experiment.

For example, a possible hypothesis could be: Water plants give off more bubbles per minute when they are given more carbon dioxide.

- 2 Look for:
- a clear statement of the independent variable and dependent variable
  - at least two other variables that will be controlled
  - a clearly explained method, with enough detail that someone else could follow it, including a labelled diagram of the apparatus
  - a clear description of how the independent variable will be changed
  - a clear description of how and when results will be collected
  - a results chart, with headings and units (but no results)
  - a prediction based on scientific understanding.

**Thompson Publishing Exercise Science Workbook Answers:**

## Enjoying the Melody of Phrase: An Psychological Symphony within **Thompson Publishing Exercise Science Workbook Answers**

In a world taken by displays and the ceaseless chatter of instant connection, the melodic elegance and mental symphony produced by the prepared word frequently fade into the background, eclipsed by the constant sound and interruptions that permeate our lives. Nevertheless, set within the pages of **Thompson Publishing Exercise Science Workbook Answers** a charming fictional prize full of fresh thoughts, lies an immersive symphony waiting to be embraced. Constructed by an outstanding musician of language, this captivating masterpiece conducts visitors on a mental trip, skillfully unraveling the hidden melodies and profound influence resonating within each cautiously constructed phrase. Within the depths with this emotional analysis, we will investigate the book is main harmonies, analyze its enthralling publishing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
