ORACLE DATABASE ADMINISTRATION
CERTIFICATE PROGRAM • ON CAMPUS OR ONLINE

Train with the best. Get your Oracle Database Administration education from the *number-one provider** of Oracle training in California. UCI Division of Continuing Education's training accelerates your professional development, improves your productivity, and helps you get on the road to certification.

This program will give you a comprehensive hands-on, lab-based understanding of Oracle, the world's leading database platform, and long the product of choice for mid- to large-sized companies requiring robust, reliable data management capabilities. The practical skills you will develop through study in this certificate program will prepare you to administer, manage, install, secure and optimize the Oracle database platform. Not only will you learn to manage database systems, but you will also become skilled at interacting with developers on business applications, working with business analysts to identify database solution strategies meeting business objectives, and ensuring that your company's data is secure, available, and accessible.

You will learn basic database functionality, as well as more advanced database administration skills such as backup, recovery, tuning and network administration. The certificate program utilizes official Oracle certified courseware, and helps you prepare for Oracle Certified Professional (OCP) exams.

WHO SHOULD ENROLL

IT professionals including: individuals who need/want to pass Oracle certification exams; those wishing to become an Oracle DBA; current Oracle DBAs in need of refreshing their skills; developers working with Oracle to improve their applications; database administrators, programmers, business analysts, consultants, managers and operation staff supporting Oracle products and services; IT and computer science learners interested in working in Oracle. Some prior experience with programming or scripting is helpful in this course, but not strictly required.

For those who need it, the non-certified course I&C SCI X426.81 Designing Relational Databases provides foundational knowledge of database principles.

This program focuses on database administration, backup recovery, networking, and performance tuning. Included are theory and hands-on practice using the Oracle database engine, Oracle server, Oracle NET, Oracle Enterprise Manager, RAC, Grid Control, Data Guard and Streams.
