Allaire,Jennifer E. Killham,2023-01-10 Teaching and Learning Online Science for Elementary Grade Levels explores the challenges of teaching science virtually It includes sections on frameworks teacher journeys and lesson plans aligned with Next Generation Science Standards offering tips resources and discussion questions for educators and students

Recent Advances in Mathematics Textbook Research and Development Chunxia Qi,Lianghuo Fan,Jian Liu,Qimeng Liu,Lianchun Dong,2024-11-08 This open access book documents the issues and developments in mathematics textbook research as presented at the Fourth International Conference on Mathematics Textbook Research and Development ICMT 4 held at Beijing Normal University China in November 2022 It showcases research and practical experiences from the mathematics textbook research field from over 20 countries and reflects the current trend of curriculum reform globally in terms of mathematics textbook research It helps readers gain knowledge about various issues related to the development content and use of mathematics textbooks from kindergarten to university level in and out of school settings in paper or digital format as well as the historical and recent developments and future directions in mathematics textbook research ICMT 4 continues the successful series started in 2014 with the first ICMT held in Southampton UK which was followed in 2017 by ICMT 2 in Rio de Janeiro Brazil and in 2019 by ICMT 3 in Paderborn Germany

Empowering Teachers for Equitable and Sustainable Education Maria Teresa Tatto,2024-04-16 This groundbreaking book uses a comprehensive study of a novel Master of Education program to showcase how teachers can be engaged in authoritative equity based research using comparative education theory inquiry based pedagogy and the UNESCO SDGs as powerful frameworks By developing agency to advance culturally sustaining and humanizing practices it demonstrates how teachers can promote equity in their classrooms and communities The central premise of the program is that teachers must become comparative global and local action researchers to have agency in their practice and to become effective advocates for the cultural and learning needs of their students especially those in disadvantaged contexts or learning at the bottom of the pyramid By learning comparative framing and social science methods reviewing the literature to select verifiable educational research and developing and implementing a plan for action research this book offers new ideas for how teachers can effectively respond to recent UNESCO calls to reimagine and create promising futures locally By providing formative and summative evidence of culturally and socially transformative learning and showcasing how teacher educators can engage teachers in authoritative justice inquiry based research this book will appeal to scholars faculty and researchers of comparative education and teacher education and development

[Building Family-School Partnerships in Secondary Math](#) Shakiyya Bland,Julitha Rials,2026-01-08 When families join the equation they inspire and empower every

student mathematician Many secondary math educators feel the gap between home and school when it comes to engaging families in their students mathematical development While traditional guardian involvement often lessens after elementary school research shows that authentic family engagement during the critical middle and high school years can significantly impact student success Building Family School Partnerships in Secondary Math offers a research backed approach to bridging this divide grounded in the Standards for Mathematical Practice Math Language Routines and Funds of Knowledge frameworks This practical guide addresses the unique challenges of secondary mathematics education from the cognitive and social changes students experience during adolescence to the increasing complexity of mathematical concepts Rather than adding unrealistic demands to already busy teachers and caregivers the book provides actionable strategies that honor the strengths and knowledge that educators students and families bring to the learning process Key features include Culturally responsive frameworks that connect students lived experiences to powerful mathematical practices Ready to use templates for family letters at home activities and communication tools Authentic vignettes showing successful family engagement in action across diverse communities Reflection questions and activities designed for both educators and families to use together Dr Shakiyya Bland and Dr Julitha Rials draw from their extensive experience in mathematics education and equity work to show how genuine partnerships can help students see math as relevant to their daily lives whether through cooking budgeting construction or community problem solving When families and educators collaborate meaningfully mathematical thinking grows deeper and students develop stronger identities as capable mathematicians ready for future success

Teaching in Inclusive Classrooms Diane P. Bryant, Deborah D. Smith, Brian R. Bryant, 2024-02-20 Teaching in Inclusive Classrooms guides educators through inclusive education using the ADAPT framework Packed with practical examples evidence based practices and hands on strategies the Third Edition empowers educators to effectively teach students with disabilities in inclusive environments Handbook of Family Literacy Barbara H.
