It includes practical case studies and tutorials that will inform, inspire, and help you to conduct product design research better. Manifest in the design process is the act of research. Huge technological advances in information computing and manufacturing processes also offer enormous opportunities to product designers such as the development of intelligent products and services but at the same time raise important research questions that need to be dealt with. This book demonstrates in a clear, highly visual, and structured fashion how research methods can support product designers and help them address the very real issues the world currently faces in the 21st century.
