J. Barker,1997 When the South African Council for Automation and Computation SACAC first submitted a bid to host the 8th IFAC Symposium on Automation in Mining Mineral and Metal Processing in Beijing many obstacles were evident Most of these were embodied in negative international attitudes to the government of the Republic of South Africa and the apartheid society it supported However it is to the credit of the IFAC working group on automation in mining mineral and metal processing that their application at that time was considered favourably although not formally accepted It took a visit to the 10th IFAC World Congress in Sydney and a visible shift in the political scenario to persuade the relevant IFAC committees that South Africa would be suitable for the symposium A national organising committee was formed under the leadership of SACAC and the South African Institute of Measurement and Control SAIMC the South African Institute of Electrical Engineers SAIEE and the South African Institute for Mining and Metallurgy SAIMM The combined team set about organising the first major IFAC international symposium in South Africa since 1976 The theme for the Symposium was based on the need to promote technology transfer and papers which addressed this issue were favoured With over 50% of the authors from other countries a significant opportunity for technology transfer into South Africa was created which is in keeping with the overall theme **Energy Research Abstracts** ,1979 **CME** ,1977-07 Computer Books and Serials in Print ,1985 Scientific and Technical Books in Print ,1972 International Journal of forecasting ,2004 **Books in Print** ,1981 British Books in Print ,1971 *Catalog of Copyright Entries.
