Communication Skills in Focus* Yeneneh Wubetu,2023-03-01 Master s Thesis from the year 2017 in the subject Didactics for
the subject English Pedagogy Literature Studies grade 3 97 on a 4 0 scale Haramaya University School of Foreign Languages
and Journalism course Teaching English as a Foreign Language language English abstract The purpose of this study was to
identify the oral communication skills that Tourism and Hotel Management students THMS at Haramaya University need for
their academic and career purposes Particularly this study aimed to assess the value of specific oral communication skills
within occupational contexts identify oral communication problems of THMS and explore the communicative events that
arise during oral interactions To attain the objectives this research employed cross sectional survey design and explanatory
method for data analysis The practitioners questionnaire was distributed to 110 tourism and hospitality guest facing
practitioners and THMS n 70 filled in THMS questionnaire A semi structured interview was conducted with 3 subject area
lecturers The quantitative data were processed by using SPSS 20 while the qualitative ones were coded based on semantic
affinity for analysis The study revealed that listening skills such as comprehending colloquial and idiomatic expressions
understanding guests multifarious English accents recognizing meaning shift because of change in intonation and stress are
worthwhile for THMS prospective careers in tourism and hospitality sector Effective communication with guests on the
phone clear and direct speech interpretation without meaning distortion and appropriate responses to guests requests and
complaints were found to be equally important speaking skills Similarly eye contact facial expressions gesture tone and pitch
volume were found to be the salient non verbal communication behaviors that should comply with the communicative
contexts during oral interactions The research indicated that most THMS lacked spoken production skills spoken interaction
skills and nonverbal communication skills It also showed that the communicative events that arise during oral communication
in occupational and academic contexts require THMS to have good command of oral proficiency Therefore it can be
concluded that THMS current oral proficiency may adversely affect their academic performance and employability skills
Based on the findings the researcher recommends oral communication trainings that can enhance THMS academic
involvements and employability skills and the inclusion of oral communication courses in THM curriculum for prospective use
