In 2010 Kevin Systrom and Mike Krieger released a photo sharing app called Instagram with one simple but irresistible  
feature it would make anything you captured look more beautiful The cofounders cultivated a community of photographers  
and artisans around the app and it quickly went mainstream In less than two years it caught Facebook s attention Mark  
Zuckerberg bought the company for a historic 1 billion when Instagram had only thirteen employees That might have been  
the end of a classic success story But the cofounders stayed on trying to maintain Instagram s beauty brand and cachet  
considering their app a separate company within the social networking giant They urged their employees to make changes  
only when necessary resisting Facebook s grow at all costs philosophy in favor of a strategy that highlighted creativity and  
celebrity Just as Instagram was about to reach a billion users Facebook s CEO Mark Zuckerberg once supportive of the  
founders autonomy began to feel threatened by Instagram s success Frier draws on unprecedented access from the founders
