Cudahy, 2007-12 Fifty years ago on April 26 1956 the freighter Ideal X steamed from Berth 26 in Port Newark New Jersey Flying the flag of the Pan Atlantic Steamship Company she set out for Houston with an unusual cargo 58 trailer trucks lashed to her top deck But they weren t trucks they were steel containers removed from their running gear waiting to be lifted onto empty truck beds when Ideal X reached Texas She docked safely and a revolution was launched not only in shipping but in the way the world trades Today the more than 200 million containers shipped every year are the lifeblood of the new global economy They sit stacked on thousands of box boats that grow more massive every year In this fascinating book transportation expert Brian Cudahy provides a vivid fast paced account of the container ship revolution from the maiden voyage of the Ideal X to the entrepreneurial vision and technological breakthroughs that make it possible to ship more goods more cheaply than ever before Cudahy tells this complex story easily starting with Malcom McLean Pan Atlantic s owner who first thought about loading his trucks on board His line grew into the container giant Sea Land Services and Cudahy charts its dramatic evolution into Maersk Sealand the largest container line in the world Along the way he provides a concise colorful history of world shipping from freighter types to the fortunes of steamship lines and explores the spectacular growth of global trade fueled by the mammoth ships and new seaborne lifelines connecting Asia Europe and the Americas Masterful maritime history Box Boats shows how fleets of these ungainly ships make the modern world possible with both positive and negative effects It s also a tale of an historic home port New York where old piers lie silent while 40 foot steel boxes of toys and televisions come ashore by the thousands across the bay in New Jersey      The Electrician ,1907      Yachting ,2006-11
