Expanding Tertiary Education for Well-Paid Jobs Andreas Blom,Reehana Raza,Crispus Kiamba,Himdat Bayusuf,Mariam Adil,2016-06-14 Expanding Tertiary education with quality relevance and equity is one of the most decisive challenges for Kenya s future including the achievement of the ideals of the 2010 Constitution and especially its 2030 vision which aims at transforming Kenya into a newly industrializing middle income globally competitive and prosperous country That is because tertiary education can contribute in a critical manner to successfully overcome several of the country s challenges This book provide analysis and policy recommendations to Government of Kenya tertiary education leaders and the many stakeholders on managing the massive tertiary education expansion facing the country This book first discusses the motivation for the analysis and its choice of three critical topics quality and relevance governance and student financing Secondly it reviews findings on each area and third it ends with a set of policy recommendations *Issues of Governance, Security, and Development in Contemporary Africa* Mohamed Saliou Camara,Alem Hailu,Sabella O. Abidde,2023-12-15 Governance security and development are three critical components of a dialectical nexus that is both dominant and determinant for any objective and fruitful quest for the understanding of the trajectory of a country a region or in the case of Africa a continent from a colonial past to a neocolonial and meta colonial present and toward a future of strategic optimal independence and self reliance That colonial past and the ensuing neocolonial and meta colonial present have made these critical components and the dialectical nexus that they form particularly challenging for the African continent For this reason *Issues of Governance Security and Development in Contemporary Africa* offers an in depth interdisciplinary analysis of the challenges that contemporary Africa faces within these critical areas as well as the resources and prospects that the continent possesses and can leverage to overcome the said challenges Using case studies involving a range of countries across the continent Mohamed Saliou Camara Alem Hailu and Sabella O Abidde argue that Africa needs to decolonize the terms of reference that guide its nation building statecraft and national development agenda in ways that will facilitate the establishment of viable systems of governance and security and the promotion of genuine development Handbook of Research on Modern Educational Technologies, Applications, and Management Khosrow-Pour D.B.A., Mehdi,2020-07-10 As technology and technological advancements become a more prevalent and essential aspect of daily and business life educational institutions must keep pace in order to maintain relevance and retain their ability to adequately prepare students for their lives beyond education Such institutions and their leaders are seeking relevant strategies for the implementation and effective use of new and upcoming technologies and leadership strategies to best serve students and educators within educational settings As traditional education methods become more outdated strategies to supplement and bolster them through technology and effective management become essential to the success of institutions and programs *The Handbook of Research on Modern Educational Technologies Applications and Management* is an all encompassing two volume scholarly reference comprised of

58 original and previously unpublished research articles that provide cutting edge multidisciplinary research and expert insights on advancing technologies used in educational settings as well as current strategies for administrative and leadership roles in education. Covering a wide range of topics including but not limited to community engagement, educational games, data management and mobile learning, this publication provides insights into technological advancements with educational applications and examines forthcoming implementation strategies. These strategies are ideal for teachers, instructional designers, curriculum developers, educational software developers and information technology specialists looking to promote effective learning in the classroom through cutting edge learning technologies, new learning theories and successful leadership tactics. Administrators, educational leaders, educational policymakers and other education professionals will also benefit from this publication by utilizing the extensive research on managing educational institutions and providing valuable training and professional development initiatives as well as implementing the latest administrative technologies. Additionally, academicians, researchers and students in areas that include but are not limited to educational technology, academic leadership, mentorship, learning environments and educational support systems will benefit from the extensive research compiled within this publication.

Higher Education Leadership and Governance in the Development of the Creative and Cultural Industries in Kenya Akuno, Emily, Ondieki, Donald Otoy, 2017-05-05. The role of higher education in establishing structures and procedures in society and industry is clearly articulated in scholarly discussions. The narrative has recently taken a new momentum in Kenya with acknowledgement of the creative industry involves many youth as an area that impacts on the economy. In unravelling the link between higher education and industry, the authors focus on leadership and governance in higher education and its expected and perceived contribution to the shaping of the creative industry. Through analysis of cases, the authors interrogate the processes and structures that govern the teaching and practice of the creative subjects, noting how these affect the creative industry in Kenya. This book approaches the creative disciplines from the perspectives of the students, lecturers and university administrators. The three voices provide a balanced view of what higher creative arts education in Kenya is. The multiple authorship of the book further provides a balanced account of the development of these disciplines in higher education and their growth in industry. The key concepts here are the development of the creative industry and how higher education should contribute to the same.

Radiology in Global Health Daniel J. Mollura, Melissa P. Culp, Matthew P. Lungren, 2018-12-31. Exploring the question as to why more than half the world continues to have little or no access to medical imaging and radiology, this important second edition, fully revised and expanded, offers not only answers but practical solutions, providing new tools, ideas and strategies for bringing vital radiology to low resource areas. Based on RAD AID's ten years of work, 2008-2018, serving indigent communities around the world, the book's interdisciplinary approach offers the synthesis of business management, government policy formulation, clinical methods and engineering in order to integrate economic development, technology innovation, clinical model planning
