**Report of the Congressional Joint Commission on Reclassification of Salaries** United States. Reclassification of Salaries, Joint Commission on,1920 Tribes and Territories in the 21st Century Paul Trowler,Murray Saunders,Veronica Bamber,2012-01-25 The tribes and territories metaphor for the cultures of academic disciplines and their roots in different knowledge characteristics has been used by those interested in university life and work since the early 1990s This book draws together research data and theory to show how higher education has gone through major change since then and how social theory has evolved in parallel Together these changes mean there is a need to re theorise academic life in a way which reflects changed contexts in universities in the twenty first century and so a need for new metaphors Using a social practice approach the editors and contributors argue that disciplines are alive and well but that in a turbulent environment where many other forces conditioning academic practices exist their influence is generally weaker than before However the social practice approach adopted in the book highlights how this influence is contextually contingent how disciplines are deployed in different ways for different purposes and with varying degrees of purchase This important book pulls together the latest thinking on the subject and offers a new framework for conceptualising the influences on academic practices in universities It brings together a distinguished group of scholars from across the world to address questions such as Have disciplines been displaced by inter disciplinaryity having outlived their usefulness Have other forces acting on the academy pushed disciplines into the background as factors shaping the practices of academics and students there How significant are disciplinary differences in teaching and research practices What is their significance in other areas of work in universities This timely book addresses a pressing concern in modern education and will be of great interest to university professionals managers and policy makers in the field of higher education
