Circuit Training Workouts R. M. Lewis,2017-04-22 Circuit training is a great way to build muscle and burn fat without spending half your time at the gym every day In a circuit training workout you do one exercise for an allotted amount of time or reps and then immediately start the next exercise without a break When you complete one circuit of exercises you take a quick breather for 60 seconds and then do it all again Sounds challenging right It certainly is but that's exactly why it works so well Even people who have been weightlifting for years often find circuit training intense to start with but the results of circuit training speak for themselves One of the many advantages of circuit training is the simplicity of the exercises Many of them are based on using your own bodyweight This means that even if you don't have access to a gym you can still get in the best shape of your life with the workouts in this book Many of these circuits require no equipment at all and many others require nothing more than a pair of dumbbells or a barbell Workouts for the gym are also included so you can take full advantage of circuit training no matter what your situation This book includes the following Arm circuit workouts Leg circuit workouts Ab circuit workouts Upper body circuit workouts Full body circuit workouts Explanations on how to do each exercise With so many different exercises there's no reason to ever get bored with your workout routine and with 50 different routines in the book you can always switch from one to another to keep your workout fresh Several of the workouts include variations you can try whenever you want to either for variety or as an added challenge You can customize circuit training to your own schedule and experience level by working out once twice three times or more a week depending on your situation This book contains workouts for all three schedules so you can pick the one that works for you If you want to be fitter than ever before circuit training is the way to do it and this book will show you how
