

Algebra 2B - Activity 10.2

1. Based on the grid below, identify each function below as being a linear or a non-linear function.

2. Identify each of the functions below that are **linear**. If they are linear, write the equation of the function. If they are **non-linear**, write the equation of the function.

This is being presented with the grid for the same reason.

3. Graph each of the functions part 2 on the grid below and label each with its equation if it is linear. If it is not linear, write the equation of the function.

Remember, the functions that are **linear** are those that can be written in the form $y = mx + b$ where m and b are real numbers.
