alongside extreme right accelerationism in a wider Australian political context characterised by reactionary fossil fuel politics and neoliberal New Right climate change agendas The authors scrutinise the manipulation of environmental politics by contemporary Australian far and extreme right actors in cross national online media They also assess the political ideological context of the contemporary far right addressing intergovernmental approaches to security threats connected to the far right and climate change and the emergence of radical environmentalist traditions in New Catastrophism literature The conclusion synthesises key insights analysing the mainstreaming of ethnonationalist and authoritarian responses to global heating and potential future trajectories of far right movements exploiting the climate crisis It also emphasises the necessity for radical political alternatives to counter the far right s exploitation of climate change This book will be of interest to researchers of climate change the far right neoliberal capitalism extremism and Australian politics *The Public Eye* ,2007 A journal of social and political issues Motion Picture Story Magazine ,1912 Teaching Design Meredith Davis,2017-07-11 An Expertly Written Guidebook to Teaching Design at All Levels Teaching Design provides a practical foundation for teaching about and through design The exploding interest in design and design thinking calls for qualified faculty members who are well prepared for a variety of institutional settings and content areas While designers know their disciplines they frequently lack experience in constructing responsive curricula and pedagogies for rapidly evolving professions And while K 12 educators are trained for the classroom their ability to transform teaching and learning through design is limited by a shortfall in professional literature Davis s extensive experience in education offers a detailed path for the development of curricula The book addresses writing objectives and learning outcomes that succeed in the counting and measuring culture of institutions but also meet the demands of a twenty first century education An inventory of pedagogical strategies suggests approaches to learning that serve both college professors and K 12 teachers who want to actively engage students in critical and creative thinking Sections on assessment make the case for performance based activities that provide credible evidence of student learning Davis also discusses the nature of contemporary problems and teaching strategies that are well matched to growing complexity rapid technological change and increased demand for interdisciplinary engagement Examples in Teaching Design span the design disciplines and draw on Davis s experience in teaching seminars for college faculty graduate courses for design students seeking academic careers and workshops for K 12 teachers converting their classrooms into centers for innovation **Bring Work to Life by Bringing Life to Work** Tracy Brower,2014-09-23 Organizations accomplish results when they powerfully engage employees and capture their discretionary time This is more important than ever during this period where employees are facing unprecedented time poverty Technology has blurred the lines between employees work and personal lives and they are faced with the challenges of successfully navigating and integrating work and personal demands When organizations provide the right benefits policies and cultural practices they win and they serve employees in the process Using examples and real world experiences from senior executives and employees at all levels
