idea for this book grew out of an intensive study of the small place from the point of view of the landscape architect The actual formation of the book began several years ago while I was still serving my apprenticeship and much of the material was gathered on the occasional journeys for observation to town and country with which I varied the work in the office During this time I have studied and worked on large gardens and rich estates and I take unusual pleasure in the opportunities for landscape development that they offer but the small place still retains its fascination for its possibilities which are generally overlooked are infinite and its limitations which are considered as drawbacks ought to be the very means of its making About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged

copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
