Financial Literacy: Understanding Personal Finance for Better Financial Health Namaskar Book,2024-10-21 Take control of your financial future by mastering the essentials of personal finance In Financial Literacy readers will gain a comprehensive understanding of key financial concepts from budgeting and saving to investing and debt management This essential guide demystifies personal finance empowering you to make informed decisions that lead to better financial health With practical tips tools and real world examples you ll learn to navigate your financial landscape build wealth and achieve your financial goals with confidence *Tl;dr* Karl Fisch,2019-05-05 You know you need to learn more about personal finance in order to make financial decisions but you just find it too overwhelming too intimidating and too time consuming This book was written for you giving you the basics in less than an hour and then directing you to further resources fischlearning com tldr if you d like to learn more It s about 30 pages and should take less than an hour to read so instead of TL DR Too Long Didn t Read it will hopefully be JR DR KM Just Right Did Read Know More This book isn t about getting rich quickly not that s

there anything wrong with that but it s about gaining knowledge and building your capacity in order to live a good life What s a good life I don t know everyone s definition is different What s important is that you take the time to define what a good life is for you and then align your financial decisions with that The goal of this book is to help you think about your finances in such a way that you have the independence to lead the life you want to live to give you as much control as possible over your financial situation so that your finances don t prevent you from living the life you want I say book because that s what Amazon calls it but it s more like a really long blog post I wrote it because finances and financial decisions are such a huge part of everyone s life that they should take the time to thoroughly educate themselves Since many folks won t do that this book is an attempt to quickly give them the basics and hopefully encourage them and give them the confidence to learn more I am not a financial planner I have taught students mathematics and computer science for over thirty years but have no formal training in personal finance or investing and no certifications I am simply a lifelong learner constantly curious and have been interested in personal finance since working in a credit union during high school and college and continued to be curious and learn more about finance during my career as a public school teacher Over my years as a teacher I discovered that not only did my students not know much about personal finance but neither did my family friends and colleagues I often served as a resource for those folks Partially as a result of that experience I see the necessity for a book such as this as I wanted to do my part to try to help others become financially literate While it would be nice to make a little bit of money from this that s not really my expectation or my goal This is a passion project for me I hope folks find it helpful If you do read it it would be helpful if you could leave a review on Amazon and or email me at karl.fischlearning.com a testimonial for the accompanying website I would also love constructive feedback at bit.ly/tldrfeedback So about thirty pages About an hour Ready to get started Future you will thank you
